

THE FACTS ABOUT

FATS, OILS, & GREASE

Fats, oils, and grease (FOG) are common by-products of:

food preparation

cooking

clean-up

Build-up of FOG can cause:

sewer overflows

backups that impact the environment

clean-up and repairs that cost homeowners and businesses a lot of money

How can you help?

Proper Grease Disposal

STEP ONE

Allow leftover grease to cool to room temperature then scrape into a can or jar.

STEP TWO

Wipe surfaces with a paper towel.

STEP THREE

Place the container and paper towel in the trash.
